Memorandum for Student Organizations, Departments and Outside Community
Entities

From: Assistant Vice President of Facilities and Grounds

Re: Use of Lighting Utensils for Campus Vigils, Memorials and events

Effective immediately, although it has been a practice for the past year, candles are not permitted for illumination at outdoor UA campus events. Candles should be replaced by one of several varieties of "flameless" candles available for purchase. These flameless candles are inexpensive and do not pose the immediate threat of fire or damage created by traditional candles. Violation of the policy above may result in disciplinary action or referral to the UA Office of Judicial Affairs, coupled with monetary charges for damage and clean up.
